## Profile

I'm a software developer with almost 4.8 plus years of experience, excited to find a great fit in a company that values growth and innovation. I love creating efficient solutions and I'm eager to keep learning and improving while making a meaningful impact in my role.

## WORK EXPERIENCE

08/2025 – Present

### CAPGEMINI TECHNOLOGY SERVICES INDIA LTD

Consultant

Collaborated with TransUnion as our client on the TUCIS (TransUnion Credit Inquiry Service) portal project, developing customized solutions to meet their credit inquiry processing requirements.

10/2023 – 08/2025

### TATA CONSULTANCY SERVICES LIMITED

System Engineer

Teamed up with Nokia as our client on a telecom project, crafting custom actions to fit their requirements. Responsibilities

- Using Nokia UIV SDK, develop custom actions (create, delete, reserve, release, assign, de-assign) via REST APIs for managing telecom entities.
- Designed and implemented templates triggered by the FlowOne team to consume APIs and integrate them into automated workflows.
- Collaborated with cross-functional teams to deliver client-specific solutions and ensured reliability through detailed documentation.
- Worked on a migration project for migrating data between databases efficiently and securely.
- Prepared Method of Procedure (MoP), Release Notes, and other deployment documentation to support production releases and operational readiness.

03/2021 – 07/2023

### VIRTUSA CONSULTING SERVICES (P) LTD

Engineer - Technology

Collaborated with BMO as our client on the Cost Of Borrowing project, tailoring solutions for loan calculations and agreement generation. Responsibilities

- Implemented REST APIs, tailored to the specific business requirements of the Cost Of Borrowing project for BMO.
- Utilized tools like POSTMAN to rigorously test REST APIs before deployment, ensuring reliability and functionality for end users.
- Handled ad hoc tasks and resolved bugs during testing, ensuring smooth release.
- Collaborated with developers to improve features and introduce new functionalities.
- Boosted code quality by writing JUnit tests, ensuring application reliability.

## SKILLS
